Professional Chimney Sweep.

The undersigned respectfully inform the citizens of Duluth that I have continued to take up and clean chimneys by machine as chimney sweep in this city and that I will give satisfaction in every instance.

I have been a professional chimney-sweep in Germany and practiced said business for fourteen (14) years with success in the above mentioned country. I am also in possession of a certificate of my profession, issued to me by the German government, which is deemed a most particular mark and are able to undergo the most critical examination to citizens of the authorities of such government.

My business consists of the following branches, viz:

To give practical advice to those persons who are troubled with having their houses filled with smoke at certain or all times.

To contract for those whose chimneys cannot omit the smoke on account the air pressure upon the same, caps which are only two or three inches long and which will give them the required draft.

And to be present at such as may be specified at any hour of the 7 days to be present at a large proportion of all the fires in their settlements, as I am as much accustomed to walking and staying in smoke as the roof itself is to stay under water, for which service I will ask no compensation from any body.

Parties who wish to have their chimneys swept or cleaned may send any of the foregoing branches will please leave their orders, if they are in such at Mr. W. Curry's if they are Germans or Scandinavians, at G. Lamb's, Inter-H. Berg's most handy. Respectfully P. O. Box 1062. FRED RICKERT.
