

ZIEN'S IRON DEVELOPMENTS.

J. D. Zien has gone to Hibbing to super-
vised the beginning of exploration work
on lands he owns in section 27, township
4 range 21. Mr. Zien is much encouraged
by the results of the election and regards
the outlook as sufficiently favorable to
justify him in keeping fifteen or twenty
men at work throughout the winter on
the development of his iron properties.
