The laundress is sure of satisfactory results in her work if she uses Ivory Soap. Linens are of immaculate whiteness; no dirt or streaks anywhere. There's no room for criticism in the work when brought home. Ivory Soap is cheaper than common soaps in the end.

A WORD OF WARNING.—There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

TEARE MAY RESIGN

CAPTAIN OF COMPANY G WILL PROBABLY GIVE UP COMMAND.

Resignation Likely to be Announced at a Meeting of the Company This Week—Lieut. A. B. Wigdahl Big Probable Successor—Two Vacancies to be Filled by Election of the Members of the Company.

Capt. C. C. Teare will probably resign the command of Company G this week. This was the report on the street yesterday. All three companies will hold meetings this week, and it is quite likely that when Company G gets together Capt. Teare's resignation will be announced. It is said that Capt. Teare is impelled to make this move on account of the requirements of his private affairs.

The resignation of Capt. Teare and the appointment of Second Lieut. Smith to a position as second lieutenant in the regular army under the provisions of the act recently passed by congress will make two vacancies in G company to be filled. The command of the company will probably fall to Lieut. A. H. Wigdahl, the next ranking officer. It is by no means certain that Lieut Wigdahl will be chosen, but he is very popular with the members of the company and is regarded as a good disciplinarian as well as an enthusiastic soldier. While at Chickamagua with the Fourteenth regiment last summer he was for a time acting commander of the company. Should it so happen that Lieut Wigdahl is raised to the command of the company by vote of its members, and that is the way a new captain will have to be chosen there will be two lieutenies left vacant. These will have to be filled through ballot of the members of the company, and it is more than likely that the two lieutenants would be selected from a quartette consisting of Clinton McCormick, Henry Meining, J. Scott Cash and W. A. Chapman. It would be hard, indeed, to take any one out of the four as a certain winner, for each seems about equal in popularity with the other, and all four are said to be well qualified for the honor.

Capt. Teare has given much of his time to military affairs. All of the members of the company that had heard of the coming resignation yesterday had a good word to say for their commanding officer. There were some differences between Capt. Teare and some of the members of the company while at Chickamauga last summer, but these have all been forgotten since they have come back to civil life. They speak of him as being very strict, but a good disciplinarian, and an excellent drill master. Capt. Teare is by training a soldier, and was probably the best equipped officer, in the way of military training, in the entire Fourteenth regiment. Capt. Teare, received his education at West Point. After graduating he served three years in the regular army and was a lieutenant in the Twenty-fifth infantry stationed at Fort Snelling. He resigned his position in the army to practice law, coming to Duluth where he soon became identified with the Republican party leaders and received the nomination for county attorney. He was elected and served two terms. Soon after coming to Duluth he became connected with old Company K as second lieutenant. Company A, of the Third regiment, was made up of about the same men that had formed Company K, of the Second. After the change Capt. Teare was elected to the command of Company A. He resigned this command after serving through a long period of time. He was elected to the command of Company G, to succeed Capt. E. U. Cook, resigned, and served through last summer with his company at Chickamagua and Knoxville. While at Chickamagua, Capt. Teare was for a time acting ass'stant adjutant general, and judge advocate. His West Point training and knowledge of law made him especially valuable in both capabilities.

Company G has come to have quite a record for furnishing material for advanced service. Former Capt. E. U. Cook is now second lieutenant with the regulars and is connected with the Eleventh infantry. He is engaged on detached service, instructing recruits. Frank Maginnis, now with the regulars at Puerto Rico, holding a lieutenancy, is ar old member of Company G. George Nugent is now with the regulars and is connected with the Fourth artillery. He was a captain with Grigsby's rough riders last summer. George Gilbert was formerly first sergeant of Company G. He is now with the Fifteenth Minnesota volunteers holding a captaincy. John Currie, a former Company G man, is connected with the quartermaster's department. Then the latest contributions of Company G to advanced work in Uncle Sam's service is the recent appointment of Second Lieutenant R. N. Smith as second lieutenant with the regular army.

Smoke "Pontilla" Cigars.

The best 10c cigar made in Duluth. Manufactured by F.W. Claveaux & Co. For sale by the Schiller Cigar Co. and all first class dealers. J. E. Foran sole agent.

LOCAL LAKE MARINE

IMMENSE QUANTITIES OF TONNAGE AWAITS NAVIGATION'S OPENING.

Outlook for Vesselmen Was Never Brighter—Season Will be Prosperous—Ore, Lumber and Grain to be Moved Greater in Quntity Than Ever Before—Elevators Will be Full to Overflowing.

The outlook for a prosperous season for vesselmen, as viewed from the situation at the head of the lakes, was never so bright as at the present time. There are great quantities of all commodities that go to make up east bound cargoes waiting here ready for movement forward and continually being augmented by liberal receipts from the interior. At the time of the Cudahy deal that caused the collapse of some of the big elevator companies here in the spring of 1893 there was stored in the elevators here over 10,000,000 bushels of wheat at the opening of navigation, and only a nominal amount of other grains. The full capacity of the entire system at the head of the lakes will be tested before the opening of navigation this year, and while there will probably be less wheat in store than there was in the spring of 1898, when a most promising outlook for the elevators was shattered by the slump that swept over the Chicago market, where the Duluth storage houses had placed their hedges of May wheat, there will be large quantities of other grain, so that the total grain in store will be greater than ever before. The movement of flour to this point for trans-shipment has commenced and by the end of April there will be a large quantity stored in the warehouses here to be moved forward. The iron market is such that the ore shipments from the head of the lakes will be greater than ever before. It is confidently expected by the men best posted in the ore trade here that the ore shipments from the western end of Lake Superior this season will exceed by over 2,000,000 tons the great record of almost 9,000,000 tons made during the past season of 1898. The outlook in the lumber trade is very roseate. Lumber buyers from Chicago and the east, and from a considerable journey in the south are here, or have been here during the winter, taking not only everything that was in stock piles here, but they have bought almost the entire out of the sawing season of 1899. Some dimensions have been entirely disposed of. Within the past few weeks prices have cut very little figure. Buyers were here to get lumber and they simply insisted on having it at any price. The demand for cails and the lower grades of lumber have been especially insistent. Last season's lake shipments amounted to 312,220,000 feet, as against 221,616,000 feet in the season of 1897. This year the shipments may equal 500,000,000 feet. One big mill starts the season's cut this week. Several large contracts involving the c e of large quantities of timber have been let here within the past few months, and the lumber market has been in such condition that bidders on these contracts have been quite seriously embarrassed in their efforts to arrange for certain stuff required. These contracts amount in the aggregate to about $500,000. They are the rebuilding of docks No. 2 and 3 at Superior Harbors, the addition of 96 pockets, the construction of the big dry dock, the largest on the lakes, of the American Steel Barge company at West Superior, and the addition of 600,000 bushels capacity to elevator E of the Consolidated Elevator company's system. Details could be given for heavy timber, some of which it is absolutely impossible to get at this time, but options have been secured on the stuff needed, to be delivered as required, so that none of the work will be delayed for the want of pine. A great deal of the lumber to be moved forward has already engaged shipping room, but the great bulk of the stuff will be contracted for as it is ready to be moved.

A peculiar feature of the grain charter situation is that comparatively little room has been engaged. Perhaps little more than 3,000,000 bushels have been contracted and most of this was contracted last fall when rates were about 1½-2½c per bushel. A year ago over 5,000,000 bushels were under contract. Grain shippers claim that the markets are all out of line, and that there will be no demand from the east for tonnage until the markets finally settle down to an export basis.

They say that there is yet considerable Duluth wheat in Buffalo and New York that has not been worked for export and that this is one of the reasons that so little chartering has been done. The discussion of the bill of lading has also tended to limit charters, for neither shippers nor vesselmen are willing to enter into contracts the exact terms of which could not be fixed absolutely. Vessels that are free to carry grain will find a fair of about 22,000,000 bushels here when the season opens up. There is now about 17,500,000 bushels of all kinds of grain and stocks are increasing at the rate of about 1,500,000 bushels a week. Before the middle of April there will be absolutely no room in the elevators here in which to care for the grain that may be seeking an outlet via Duluth and Superior. The nominal capacity of the elevators is 24,000,000 bushels. Receipts will be much heavier in the near future when holders of grain in country houses will begin to move it out for the purpose of escaping assessment for taxes. The elevators here may be filled to capacity very soon after April. Wheat now in store amounts to about 8,500,000 bushels; corn, 5,000,000 bushels; oats, 2,000,000 bushels; rye, 275,000 bushels; barley, 450,000 bushels and flaxseed, 1,100,000 bushels. Stocks of wheat now are increasing at about 800,000 bushels weekly, and corn at about 600,000 bushels a week.

Vessels that have in previous years kept pretty well in the grain trade may in many cases lose contracts for carrying ore. Early contracts were made at 60c a ton, but a considerable quantity of ore has recently been contracted at 55c, equal to about 2½ wheat. Ore shippers are in the market for tonnage yet and with very little success. Carnegie's ore man, E. S. Mills, of Cleveland, was recently here trying to make contracts for ore tonnage and he went away disappointed. Ore man are very anxious and representatives of some of the big furnace men have followed vessel owners to their temporary winter houses in some of the southern and southwestern resorts in attempts to get contracts over the heads of agents in charge of such business, and have returned without having met with success. It may be that grain shippers will have to pay up for boats when they want them. The situation is certainly one extremely favorable to vesselmen.

Ice in the harbor is very thick and there is a large ice field out in the main lake. The harbor ice will be some time in thawing out for the severe winter has made it thicker than usual. Out in the main lake it ought not to give much trouble after a few warm days have weakened it. It is thick enough near the harbor entrance, and the field is big enough out in the lake to discourage all attempts to get through it in the mind of the casual observer, but the fact that this big field seems to move out and in, as blows the wind, indicates that it is not so formidable an obstruction to navigation as might at first appear. From present indications it will be, at the earliest, between April 20 and May 1 before the season opens up. It may be later, and every day that the opening is delayed will tend to increase the rates that will obtain during the season.

GRAIN GROWERS' CONVENTION.

To be Held at Fargo, N. D., Three Days Next Week.

Next Tuesday, Wednesday and Thursday a grain growers' convention will be held at Fargo, N. D., in the interest of pure seed and grain growing. The Duluth board of trade has been invited to send delegates to the convention. The letter of invitation and explanation is as follows:

"The principal industry of the northwest is wheat growing. The reputation of this part of the world has been made and rests on the superior quality and yield of wheat. Without this reputation is kept up all must suffer.

"A convention will be held at Fargo, N. D., on the 21st, 22d and 23d days of March, 1899, under the auspices of the agricultural college of North Dakota, assisted by the agricultural department of the university of Minnesota, in the interest of pure seed and grain growing.

"Every home and business depends upon the harvest, and the harvest depends upon seed and the way it is planted.

"A low fare will be given on railroads running to Fargo to induce every one to attend this convention, which will be under the direction of the faculty of the agricultural college and experimental stations of North Dakota and Minnesota.

"A full program cannot be put on a hand bill or in a newspaper article. Speakers and lecurers of national reputation will be there. Every editor, educator, farmer and business man is expected to act from self interest, as all are dependent upon the harvest.

"There is not only reason to believe, but evidence is abundant, that the superior quality of northwestern wheat will soon be gone, if attention is not paid to the seed and an effort made to keep up the standard which has brought to this section wealth and fame. The last crop contained smut, foul seeds and inferior grains. The object of this convention is to stimulate united effort to improve the quality and yield of that upon which we depend and live.

"Those wishing to sell or buy seed grain can get together by corresponding with C. P. Anhir, secretary of the association, Fargo, N. D. If those having seed to sell will send a sample to Mr. Anheir, stating variety, location, amount and price, he will communicate the same to all inquirers.

"A premium of $25 will be given on the best cleaning machine; $5 on the best seed plat, and premiums and $25 for the best address on how to make the farm pay, by a farmer.

"J. A. JOHNSON, President.
"C. H. ANHEIR, Secretary.
"BUDD REEVE,
"Promoter and director.
"Corn Exchange, Minneapolis, Minn."

FACE AND HEAD COVERED WITH SCALES

Shed a Tablespoonful at Night. Hair Full of White Scales. Offers $100 for Cure. Tries CUTICURA, & is Cured.

Last summer I had company,—a man and his wife. The man's hands and face had dry, scaly sores on them, and his head was covered, his hair being full of white scales. His wife said, "Some mornings she would find a tablespoonful in the bed." I asked him, "Why don't you cure yourself?" He said, "I would give a hundred dollars to be cured. I have paid out a lot of money, but don't get cured." I told him, "I would rather him for four than that," and told him to get CUTICURA remedies. I did not see him for some time after, and then he fairly shouted: "I am cured. CUTICURA has done it."
MRS. SARAH E. MINER, Lincoln, Vt.

CUTICURA RESOLVENT purifies the blood and circulating fluids of hereditary taints, and thus removes the cause, while warm baths with CUTICURA SOAP and gentle anointings with CUTICURA (ointment) cleanse the skin and scalp of crusts and scales, allay itching and inflammation, soothe and heal.

Sold throughout the world. Potter D. & C. Corp., Sole Props., Boston. "How to Cure Every Humor," free.

SAVE YOUR HAIR by warm Shampoos with CUTICURA SOAP.

ASSISTANT TO CLERK

HE WILL PROBABLY BE ELECTED BY THE COUNCIL TONIGHT.

John W. Becker the Most Likely Candidate for the Place—Two Members of the Health Board To Be Elected—Sang's Resolution for a Ten-hour Day and Overtime Pay To Be Introduced.

The council at its meeting tonight will have a number of important measures before it for consideration. Among other things to come up will be the election of a new assistant city clerk to succeed Ellis E. Beebe. Mr. Beebe's resignation will be read. John W. Becker, stenographer in the city clerk's office; Axel Zimmerman and W. W. Blackshaw are said to be the principal candidates. S. C. Murphy, it was said yesterday, has withdrawn. He received some support during the voting last Tuesday night.

The council will probably elect two members of the health board tonight to succeed Capt. D. E. Stevens and S. O. Sterrett. Successors to Alderman Sang and Alderman Krumsieg, the other members of the health board, will probably be appointed by the mayor. It is not unlikely that all of the retiring members will be reelected themselves.

An ordinance repealing an ordinance passed some time ago, putting the matter of prosecutions of saloonkeepers in the hands of the grand jury instead of in the power of the municipal court, will probably be considered.

The bond of Dr. Webster, the newly elected health officer, will likely come up for approval, and so will a resolution extending city assessments.

Alderman Sang has introduced an ordinance making 25 days of 10 hours each a month's work for all city employes whose salaries do not exceed $50 a month. This will be considered tonight. The ordinance also provides that, for such employes, 2½ cents an hour will be paid for overtime.

The standing rules of the council for the ensuing year will probably be dealt with in the form of a resolution introduced by Alderman Cromwell.

The council will probably consider the new gas rates recommended by the water and light board at their meeting last week. The rates make a reduction of 25 cents per 1,000 feet. The water board will also ask the council for permission to make special water rates.

The matter of granting a transfer of the license of Sam Atkinson's saloon will come up. The police and license committees will report on a number of licenses.

A Special in Wringers.

For one week only we will sell a high grade, guaranteed Wringer—The Hard Ware Klad—for $2.21. Prompt delivery. Let us hear from you. KELLEY HARDWARE CO.

HAWKSHAW KID.

Youngster With an Ambition to Shadow Criminals.

Edward Everett Arnold Erickson of West Duluth, a boy 16 years old, yearns to be a detective and has offered his services to the police department. Young Erickson filed his application for such a position in the form of a letter and he interviewed Chief Hansen in person on Saturday. The letter is as follows:

"I come here to ask you if I can become a detective around here. I suppose you think I am foolish to ask such a question. You know my father. His name is William H. Erickson, or William H. Erickson of West end.

"I have seen so much dirty work around here, if you were here for a few months you would think it would not be nice to see.

"I am 16 years old, old enough to take care of myself. If you will please have the kindness to recent my petition. For my wages I would not want no more than 50 or 75 cents. And if you could furnish me with a pair of handcuffs—2, I mean. And I would want a 32-caliber or 38-caliber revolver and a star to show 'em. I want no uniform and my father would furnish the rest of my things that I need. And I think you see through this and I would hunt up burglars or thieves. And I would be a sentry in that part of the town. I wish for no more or only a paper to show them if they don't believe me. I have a good deal of courage or nerve. I will try not to blunder like some policemen. I have gone to school four years and I have studied well and sometimes I have read books how to become a policeman and how to shadow a criminal. What shall I do if I could capture one and I could be a policeman?

"And I think this is all for this time.

"Your friend,
"Edward Everett Arnold Erickson,
"West Duluth, Minn."

In the course of his interview with the boy Chief Hansen ascertained that he had been reading literature of a rather questionable character. He advised the boy to go to school and to try and select a literature of a good character, or get some one to do it for him.

UNITED IN MARRIAGE.

Miss Nellie La Vant and David Casmir Married Yesterday Afternoon.

One of the prettiest weddings that has taken place in Duluth for some time occured last evening when Miss Nellie La Vant and David Casmir, both of this city, were united in the holy bonds of matrimony. The ceremony took place at 5:30 o'clock and was performed by Rabbi Abrams, assisted by Rabbi Newfield. Both of the contracting parties are well known and popular young people and the ceremony was witnessed by a large number of the Jewish population of Duluth and West Superior. The hall was tastily decorated with cut flowers and palms and presented a very pretty appearance. The bride looked very sweet in her magnificent gown of white silk. She was attended by her maid of honor, Miss Henrietta Cook, and the groom by his best man, B. J. Cook. The flower girls were Miss Annie La Vant, a sister of the bride, and Miss Selma Casmir. After the ceremony an elaborate wedding feast was served during which over 100 congratulatory telegrams were read. Toasts were responded to by Mayor Truelsen, Dr. R. Graham and others. The bride was the recipient of many pretty and useful gifts. Mr. and Mrs. Casmir will reside in the Buffalo flats on East First street. Among those in attended the ceremony from out of town were Mr. and Mrs. Lavick, Chicago; Mr. and Mrs. Mitchell, Cleveland; Mr. and Mrs. Alberi, New York; I. Isadore, Chicago; Mr. I. Rubenstein, New York, and Mr. and Mrs. Julbus Cohen, West Superior. Among the Duluth people were Mr. and Mrs. Joe Sattler, Mr. and Mrs. Jacob Sattler, Mr. and Mrs. Gus Levin, Mr. and Mrs. P. Levy, Mr. and Mrs. I. Abrahamson, Mr. and Mrs. Krajanker, Mr. and Mrs. William Abrahamson, Mr. and Mrs. Dave Cohen, Mr. and Mrs. M. Oreck, Mrs. Monschind, B. J. Cook, H. Hirshberg, H. Y. Josephs, S. E. Gittelson, J. Rothschild, Meyar Cook, J. Abrahamson, Julious Cook, Ben Katz, Miss Mark, Miss Hearletta Cook, Miss Hanna Cook, Miss Lillian Abrahamson, Nauline Levy, Sadie Mondschind, Mary Mark and Fanny Hass.

SULTAN'S LION.

Big Turkish Wrestler to be Here Next Week.

Hali Adali, the Sultan's "lion," who says that he twice threw the mighty Yousouf, to appear in Duluth at the Armory of the Fourteenth Minnesota regiment Monday night, March 20. Articles of agreement have been signed for him to meet Duncan A. McMillan and Hjalmar Lundin in a catch-as-catch-can wrestling match in which he agrees to throw both McMillan and Lundin twice each in 90 minutes. Hali Adali is certainly big enough and fast enough to throw anybody. He seems to be a cleverer wrestler than Yousouf was, and apparently is fully equal to the latter in strength. Unlike Yousouf, Adali is a glutton for work. He wrestles on the mat from an hour or so every day with anybody who will meet him, pulls the weights for a half hour, and then takes a shower and rub down with some sort of Turkish oil. Before retiring for the night Adali goes through the Turkish method of training, leaning his weight against the wall, for a distance of about three feet, one hand at a time, for a stretch of a couple of hours. This last form of exercise, together with a jog on the road, is the only form of training the Turkish wrestlers go through at home. The wall exercise is said to be extremely beneficial to every muscle in the body.

HEAP BIG FIGHT.

Populist Wightman's Scalp Said To Be in Demand by Numerous People.

From reports current in Populist circles it is likely that J. K. Wightman may be called upon to take some Populistic disciplining at an early date. It is claimed that gentleman has been guilty of what is called gross discourtesy to some of the party leaders, and also of a misappropriation of party confidences. It is claimed that Mr. Wightman secured a number of Populist signatures to a document addressed to Gov. Lind, calling his excellency's attention to charges alleged against Deputy Game Warden Ellwell. Nothing seems to have been used, all business confidential. For privacy address J. G. Gedeon, 6 Public Square, Cleveland, O.

SIGNS OF SPRING.

Grass peeps through melting snow.
Campbor balls are seen in drugstore windows.

Light overcoats are being brushed up afresh.

Spring wraps are seen on the streets.
The ice man wearch a cheerful smile.
The coal man wishes that winter may linger.
One's last fall suits come out for renovation.
Street peddlers exhibit fresh tomatoes at reasonable prices.
Flowers are sold at lower figures by the Chestnut street vendors.
New hats begin to make their appearance.
Store windows display light textures for spring gowns.
Western and southern berries are fruit appear in the markets.
Light kid takes the place of heavy leather in women's shoes.
Gay neckwear graces masculinity.
Careful housekeepers begin to examine summer curtains and draperies, for signs of moth-soil.
Spring and summer vacation plans and Easter journeyings come up for actual consideration.

But really we may have another of 'em next week.

"Did any of your folks celebrate Washington's birthday, Bobby?" "Only da-ter." "What did she do?" "She had a call from that hatchet-faced Mr. Mouser."—Cleveland Plain Dealer.

A FELLOW FEELING

Makes Duluth People as "Wondrous Kind" as Elsewhere.

A fellow feeling prompts it.
We all have troubles of our own.
We appreciate assistance.
Relief from trouble promotes gratitude.
Gratitude promotes publicity.
Publicity promotes the public good.
A man with a bad back,
The kind that aches all day and doesn't cease at night,
Is a grateful man when his back is cured.
He wants to tell his friends about it.
Let them know relief can be had.
Lots of fellow feeling in Duluth.
Doan's Kidney Pills have cured so many backs.
Read what this Duluth citizen says:
Mr. C. Hackman, of [illegible] Michigan street, brakeman on the N. P. R. R., says: "I can recommend Doan's Kidney Pills as a thoroughly efficient remedy in all cases of kidney complaint and pains in the back and loins. I was troubled for years with a heavy, dull aching through the small of my back and an unnatural and irregular condition of the kidney secretions. My work is particularly trying on the back, and being frequently exposed to sudden weather changes and a good deal of climbing about the cars kept my complaint aggravated. I felt all run down, when I saw Doan's Kidney Pills advertised, and procured a box at the Duluth Drug Co.'s store and used them. In a remarkably short time I was thoroughly relieved of the trouble. My wife was suffering from the effects of la grippe, and had a great deal of suffering from her back. She used Doan's Kidney Pills, and the results obtained were most satisfactory. Nothing I can say would exaggerate the good opinion I have of Doan's Kidney Pills."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no substitute.
