

## Plumbing Economy

In plumbing the dearest is not necessarily the best, but it's pretty safe to conclude that the cheapest is the worst.

Our prices are neither high nor low—they're fair to you.

If you've had any experience with plumbers—if you appreciate careful, skillful workmanship and durable materials—you'll admit that our prices are right.

Consult us about any question of plumbing, heating and lighting. You won't find any charge for this in the bill.

Maybe you want a bathtub, closet, fixtures, etc. We keep a reliable line of staples of the best manufacturers.

A rush job of repairing never bothers us. We are prepared for it. A postal will bring us on the spot in a jiffy.

## Acme Cushion Shoe for Women.

The Acme is made with a live wool felt cushion insole which absorbs moisture, prevents dampness, increases blood circulation and forms a soft place for the foot to rest upon, which takes the jar off the body, thereby preventing nervousness, as the foot has a network of nerves which connect with all parts of the body, and does away with that tired or burning feeling. Made with an extra heavy sole, and the felt being a non-conductor of heat or cold, can be worn the year round, which makes it an ideal shoe for clerks, teachers and others who are on their feet most of the time.
