BENEFIT TO MANKIND
 ONE OF THE GREATEST DISCOVERIES OF THE NINETEENTH CENTURY.

There is nothing in the way of a discovery in the nineteenth century that has proved of greater benefit to mankind than that of two eminent French chemists, Morques and Gaultier by name, who discovered a way to separate the medicinal curative elements, of which there are about fifty different kinds in the cod's liver from the oil, and give to modern medicine all the tonic body-building and curative properties of that grand old remedy, cod liver oil, unnumbered by the oily, greasy part, which science had proved of no value whatever, either as a food or medicine. Thus they produced Vinol.

Vinol is guaranteed to contain in a highly concentrated form all the medicinal elements of cod liver oil, actually taken from fresh cod's liver, and wherever old fashioned cod liver oil or emulsions will do good, Vinol will do far more good—for being without oil, it is delicious to the taste, easily assimilated and won't upset the weakest stomach.

Vinol tones up the digestive organs, creates a hearty appetite, makes rich, red blood and creates strength for old people, weak women, pthy children and after sickness, and for all pulmonary trouble, it has no equal.

So strong is our faith in Vinol that we freely offer to return money in every case where it fails to give satisfaction. C. W. Walling.

CLINICAL GLASSES

ARE Glasses specially arranged for each individual, and are used only for exercise, relaxing the latent brain and eye strain. That is the latest method in the optical profession, originated by Dr. Franke, professor of latent brain strain.

With this method many sufferers are benefited, the best cure for brainworkers and bookkeepers. Many chronic optical diseases where medical skill is powerless have been cured with Clinical Glasses. They do not confine a person to wearing them constantly, as they are used on short terms daily.

Clinical Glasses will prevent increasing near sightedness, overcome spasm, destroy temporary astigmatism, and will relax the strains, which continued from day to day, irritate, disturb, and deprave other nerve centers that preside over the various functions of the body.

I guarantee to accomplish what I say. It's up to you to try it.
