

TRIP TO MINNEAPOLIS TO INSPECT PAVEMENT

RANGE BUREAU OF THE NEWS TRIBUNE.

VIRGINIA, March 29.—Alderman Mesberg yesterday received word from W. H. Bell, of Minneapolis, that the streets of that city were now in good condition and that the pavements could be easily examined. It is expected that the mayor and the members of the council, together with the committee of property holders, will leave Sunday or Monday for Minneapolis. From that investigation the council will practically determine what kind of pavement would be most suitable for the streets of Virginia.
