SECURE OPTION ON IRON ORE LAND

Virginia Men Will Sink More
Drills On Property This
Week.

(Range Bureau of the News Tribune.)

VIRGINIA, March 22.—J. Mesberg and Victor Soberstrom have just purchased of John Chesser an option on section 1-58-18, which lies just northwest of this city.

The consideration was \$1,000 cash, and in addition, 5 cents royalty on every ton of ore shipped. The option calls for a minimum output of 50,000 tons a year.

There are four holes in the property now and everyone of them leads to pay dirt. More drills will be placed on the property this week.
