

SEND QUARTERS TO FIGHT WAR

Buy Thrift Stamps and Defeat Extravagance Says Student.

By ALBERT SLONIM,
B Ninth Grade.

1111 1111 1111

One of the greatest problems confronting the United States at present is the buying of thrift stamps. A majority of the people of the United States do not recognize our two most powerful enemies, waste and extravagance. These two silent enemies have done more harm to the American cause than could be implicated by an army division of Hun veterans. We can silence these enemies by buying thrift stamps and by doing this we strike an important blow for the cause of democracy and for the production of more responsible future citizens. Think of the great deeds we are doing for the government by buying thrift stamps. We are financing the war, it is supporting the cause of freedom, and is buying insurance against the spread of the sort of thing Germany has done in Belgium and other countries. Every quarter you put into thrift stamps fires a bullet against the kaiser's men, helps wound a German soldier, and helps take a German prisoner. Why not mobilize your quarters? Send them to war to fight for liberty and against the kaiser and barbarism.

Now to the benefit of yourself; think of what a thrift stamp is doing for you. Your quarter invested in a thrift stamp is invested in the best security in the world, with a profit guaranteed by the United States and payment of principal backed by all the resources of the richest nation on earth. By buying thrift stamps we lay the corner-stone of strong and thrifty characters. Buy a thrift stamp at home, so our armies may be victorious abroad.
