THE FATAL CATARRH

AND CATARRHAL DEAFNESS

Banished by a Specialist

Is your throat raw?
Do you sneeze often?
Are your eyes watery?
Do you take cold easily?
Is your nose stopped up?
Do you have to spit often?
Do crusts form in your nose?

Are you worse in damp weather?
Do you hear noises in your ears?
Hear better some days than others?
Does change of weather affect your ears any?
Are you losing your sense of smell?
Do you have a dull feeling in your head?
Do you have to clear your throat on rising?
Do you have a discharge from your nose?

If you are troubled with any one of the above mentioned symptoms, it is up to you for your own good to speedily look into the matter and to be sure if you are suffering from the first stages of catarrh or not.

What is Catarrh—This is a question that must be answered before we can rightly understand the serious nature of this disease and its proper treatment.

Catarrh is the result of an inflammation of the mucous membrane upon which germs have settled. Usually this inflammation is accompanied by a secretion of such a nature as to spread the disease through the system, giving rise to annoying and painful symptoms. As the mucous membrane lines every organ of the body, you can readily see that catarrh may attack any and every organ of the body. To you who have children and are a subject of this terrible malady do not hesitate any longer, as catarrh is inherited and may be carried from one person to another in various ways.

The climatic conditions existing here in Duluth are ideal for catarrh and there are thousands of people in our city suffering from catarrh but are laboring under the impression that they have just a slight cold—watch out—Catarrh works like a thief in the night, attacking you when you are not expecting it, and working ever so slowly that you do not notice it until you are thoroughly in the grip of this most dangerous disease. You no doubt have heard that this disease does not amount to anything—but the most notable doctors will tell you that some forms of catarrh have led to insanity, and it has been known to cause death. Every sufferer of catarrh may expect in time that the inflammation will extend through the Eustachian tubes to the middle ear, thus preventing the ear-drum from vibrating and causing deafness. If this condition is not speedily remedied permanent deafness will be the result.

A Message from Dr. Kassmir

To you who suffer from the great American scourge—Catarrh—and who want my advice and help, my treatment is dedicated.

Let me assure you the very best thought and advice is given without any cost to you. If your trouble does not come under my speciality, you will be told so frankly and advised to go else-

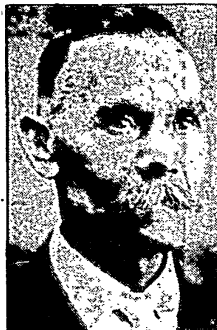

CATARRH OF NOSE AND THROAT BANISHED

O. Hanson, Northland Hotel, Ban
Catarrh Banished—Wonderful
Results.

O. HANSON,
Northland Hotel, City.

To Whom It May Concern:
I have suffered continually with nasal catarrh for the last five years. My nose was stopped up all the time and was continually blowing my nose so that I would feel at ease. Mucus dropped back in my throat all the time and I suffered from disagreeable head noises.
After taking Dr. Kassmir's treatments, I must say that I am thankful for now my nose and head are in perfect condition.
I will at all times recommend Dr. Kassmir's treatments for sufferers of catarrh. Very truly yours,
O. HANSON.

PETER SORMAN
1314 E. 11th Street
June 27, 1918.

To Whom It May Concern:
I have suffered for 2 years with Catarrhal Deafness. My condition grew worse all the time, till I could not hear very much with my left ear. Added to my deafness I suffered terribly with Head Noises which would not let up. My head was all plugged up and filled with Catarrhal mucus.
After reading Dr. Kassmir's advertisement, I finally made up my mind to consult him regarding my trouble. I was much discouraged and had little hope that he could help me, but concluded to start taking treatments.
I have been under the care of Dr. Kassmir less than 10 days and find my hearing just as good as ever. I can now hear a watch tick at a distance. The head noises have left me and I am a well man today.
I feel that Dr. Kassmir deserves both credit and praise for my present good health. I cannot say too much for him.
Very truly yours,
PETER SORMAN,
1314 E. 11th St.

DEAFNESS CURED

Ben Holmsted, 25 North Second Ave.
West, Grateful for Results Ob-
tained Under Dr. Kassmir's
Treatments.

BEN HOLMSTED,
25 North Second Avenue West, City.

To Whom It May Concern:
For the last three years I have suffered with deafness, and up to a month ago I could not hear my watch tick. People who spoke to me would have to speak very loud before I could hear them distinctly.
After taking Dr. Kassmir's treatment for deafness, I am proud to say that my hearing is normal and can even hear a pin drop.
I recommend Dr. Kassmir's treatment for all sufferers of deafness. Respectfully yours,
BEN HOLMSTED.

where for help. If your case appears so grave that results are uncertain, you will be advised to that effect.

I have no wish to frighten you now or later, but as I said before, perfect frankness with all has been one of the foundation stones of the success in my practice. However, much as you may treat catarrh as a trivial thing or something which may be put off until a convenient time, the fact remains that catarrh is serious. It does lead to some of the gravest diseases. It is the cause of 85 per cent of that terrible affliction—deafness. It is a disgusting, loathsome trouble, a constant menace to you, and one which all too likely will render you an object of aversion to your friends.

A Catarrhal Expert

Dr. George Kassmir has made a complete study of this disease in all its phases and is an expert in its treatment. Dr. Kassmir's institution is one of the most completely and scientifically equipped of its kind in the northwest. Dr. Kassmir has testimonials from well-known Duluthians testifying as to the wonderful results obtained by his scientific methods of treatment, including electricity, osteopathy, superheated air, etc.

Dr. Kassmir Also Treats Diseases of

- THE EAR
Catarrhal Deafness, Head Noises, Deafness, Ear Suppuration (acute and chronic).
- THE NOSE
Sore Nose, Inflamed Nose, Crooked Nose, Catarrh of Nose, Running Nose and Ulcerated Nose.
- THE THROAT
Catarrhal Throat, Sore and Inflamed Throat, Hoarseness, Tonsillitis (acute and chronic), Bronchial conditions and Asthma.
- THE EYES
Sore Eyes, Inflamed Eyes, Weak Eyes. (Glasses Fitted—Examination Free).

FREE EXAMINATION

All sufferers of catarrh and catarrhal Deafness are invited to visit Dr. Kassmir's Institute for complete examination, absolutely free of all cost or obligation.

This is the opportunity to find out the actual condition of your ears, nose or throat, without cost or obligation to yourself. Also it will give you an opportunity to have explained in detail the highly effective methods of Dr. Kassmir's treatment. A visit will quickly show you why the statement has so often been made, "The more you know about Dr. Kassmir and the remarkable work he is doing in Du-

luth in the successful treatment of catarrhal diseases, the more thoroughly will you appreciate why Dr. Kassmir is a specialist in his line."

Likewise the value of the free examination is best appreciated by those who have been examined. If you are really in earnest in your hope for renewed health, you will delay no longer; you will make up your mind to have an examination made without further delay—REMEMBER, THERE IS NO CHARGE.

DR. GEORGE J. KASSMIR,

OSTEOPATHIC

Eye, Ear, Nose and Throat Specialist
