

## Henry Abraham Improving.

A letter was received yesterday from Henry Abraham who is now at Carlsbad, Germany, for the benefit of his health. He stated that he was gradually receiving benefit and would remain about four weeks longer. Mr. and Mrs. Abraham will sail from Glasgow for home on Sept. 27 on the City of Rome and will reach home about October 6.

beginning with today they will be brought down as rapidly as possible while there is a good head of water on. The Nemadji river is the highest now that it has been this year but before the recent rains it was at the lowest stage in years.
