

# SENIORS PLAN TO ENTER COLLEGE

## Many High School Graduates Have Made Selec- tions.

Every senior at the Central High school is planning to enter university, college or normal school next fall, or pursue higher education through post-graduate courses at the institution from which he, or she, will receive a diploma in June.

Duluth Normal school will receive many of the girls, while a large number of the boys, with their minds fixed on solving the intricacies of engineering, will go down to the Michigan College of Mines at Houghton.

The state university will get by far the greater share of the class, as usual, while contingents will go to Michigan, Wisconsin and other western universities. The school will also be represented at Cornell, Princeton, Purdue, Carleton, Mt. Holyoke and Wellesley.

Andover preparatory school, Andover, Mass., will get the Central's star athlete, Alvin Cummings, football player, baseball pitcher, basketball forward, and all-round field man. From Andover, where he will remain a year, Cummings will go up to Yale.

A few of the seniors are undecided as yet where they will attend school next year. The following list contains the names of the graduates and those of the institutions they intend entering:
