The last rehearsals for the annual Senior plays which will be given at assembly hall tomorrow night, have been held and all is going merrily.

This is by far the most important social event of the school year and each class works with the courage of expected success to make their plays the most entertaining which have ever been given. The class of '05, of which Edward Furni is president, has a great many admirers and the members are confidently predicting that all alumni of the Duluth High School will want

to come back and begin all over again after they see the work of '05.

"Special Performances" and "The Birthplace of Podgers," two clever farce comedies, will be given. Every part is in the hands of the best talent which the class affords and the class affords the best, so they say: The cast follows:
