

# ANNEX TO STORE ON SUPERIOR ST.

---

## I. Freimuth Will Remodel the Building and Add New Departments.

---

I. Freimuth has secured control of the building adjoining his mercantile structure on Superior street on the west and the acquisition will be immediately remodeled into an annex to the store. Doorways will be cut through the division walls and the haberdashery and shoe departments will be conducted in the annex. Men's footwear will be added to the stock of women's and childrens' shoes which have been sold by the prosperous firm for many years. When installed the stock will be one of the most select and extensive in the city.

The haberdashery department will be located just inside the annex entrance and very accessible for patrons in a hurry for their purchases.

From a small beginning Mr. Freimuth has become one of the most extensive and widely known merchants in the northwest and his establishment is one of the finest at the head of the lakes. He located in this city 22 years ago and enjoys the confidence of the public.
