

SHAPIRO MOVES HIS DRILL FURTHER EAST

(Range Bureau of the News Tribune.)

TOWER, Oct. 1—Max Shapiro and associates, who have had a diamond drill at work for several weeks on the Nelson lands in section 8, 61-15, have moved the machine about a mile east of there to the Sherman property where work will be continued. Only one hole was put down on the Nelson place, and this was sunk to a depth of 415 feet. It is understood that nothing was found which would warrant the company doing any further work there. Mr. Shapiro and those associated with him have options on a large tract of land in that district.
