ANOTHER BAD BREAK

Prices of Stocks Again Decline From Three to Seven Points.

WHOLE LIST UNSETTLED

Weakness Follows Announcement of Big Industrial Failure and Rumors of Financial Embarrassment in High Quarters.

New York, Aug. 11.—Following a dull and narrow morning session the stock market broke violently during the afternoon with losses in the active issues reaching from 3 to 7 points and even greater losses in the special group. The weakness in the afternoon followed the announcement of receivership proceedings in the Pope Manufacturing company and rumors of financial embarrassment in high commercial quarters.

The break was accelerated by a series of attacks against prices and the absence of substantial support. Some of the more severe losses in the late session included New York Central 3 1/2, Union Pacific 4 1/2, Northern Pacific 3 1/2, Reading 4 1/2, Great Northern preferred 4, Smelting 5, Amalgamated Copper 6, Union Pacific preferred 7 and New York Airbrake 9 1/2. Special weakness was shown by the local traction shares, Interborough Metropolitan preferred declining 4 1/2, Brooklyn Rapid Transit 5 and Third Avenue 8. Consolidated Gas also fell 3. The general list was very unsettled and feverish, with the decline still in progress at 2:30 o'clock.

The sharp break in prices brought a flood of selling orders and operators for the decline seized the opportunity to make an attack upon a vulnerable point in the list of stocks. Amalgamated Copper was the target and under heavy selling broke to 66 1/2, a new low record for the year. Pennsylvania ran off to 116, the lowest point reached in several years. Long lines of St. Paul came out driving the price down to 117 1/2. New York Central suffered in the decline, touching 100 1/2, its lowest record for the year. Liquidation was in progress to the close, with the decline somewhat checked by purchases by speculators for a decline to enable them to fill earlier contracts to sell.

IN RECEIVER'S HANDS.

Pope Manufacturing Company in Financial Trouble.

Hartford, Conn., Aug. 5.—Albert L. Pope has been appointed receiver of the Pope Manufacturing company.

The receiver was appointed upon the application of the McManus-Kelly company of Toledo, O. Bonds were fixed at \$200,000. The receiver is a son of Colonel A. A. Pope. In the order it is specified that the receiver may conduct the business and contract for sale and delivery of automobiles, bicycles, etc.

The appointment was due to the present condition of the money market, according to a statement given out by Johna, Larkin & Rathbone, counsel for the receiver.

New York, Aug. 15.—A director of the Pope Manufacturing company was quoted as saying that the company had trouble lately in negotiating its loans. It was said here that the company's working capital was too small to carry on the business and that inability to borrow money brought about the crisis. The company was incorporated in February, 1903, in New Jersey, succeeding the American Bicycle company in the manufacture of bicycles and automobiles. It owns all the stock of the Pope Motor Car and of the Federal Manufacturing companies.

There is \$10,000,000 of common stock, \$2,390,976 of first preferred and \$8,883,100 of second preferred stock outstanding. The first preferred is a 6 per cent cumulative stock, subject to call at 110. The second preferred is 6 per cent cumulative. All the stock is held in a voting trust ending till Feb. 1, 1908. There is no bonded indebtedness.
