

# COUNCIL AGREES TO PAY HALF COST OF CURBING

(Range Bureau of the News Tribune.)

EVELETH, Sept. 4—The council has agreed to pay half the cost of curbing in front of J. C. Poole's business property on Jones street, providing he will lay a cement sidewalk. Mr. Poole made the proposition, which is similar to the one made by Frank Rabinowitz, and accepted by the council.

The Duluth Engineering company sent in an estimate of \$21,000 for a 26-inch storm and sanitary sewer in Douglas avenue and Monroe street, and an estimate of \$27,000 for a 36-inch sewer. The cost of laying a cast iron water main in Grant avenue in place of the present main was estimated at \$2,600 for 6-inch, \$3,300 for 8-inch and \$4,100 for 10-inch.
