Lieut. Baker had about 25 members of Company K out to the new range for target practice Sunday afternoon. Both range and rifles are new to the boys but an excellent showing was made on the first trial. Rube Lyons made the best score of the day. The target practice from May 20 until October 20 is made a special feature of the drilling all over the country and it is to be a regular part of the company's work in this city. Lieut. Baker is the range officer and he will have the company out for practice every Sunday during the summer months. The men will go out in two squads, one in the forenoon and one in the afternoon. A special practice will be held one evening each week until after muster and it is expected that Company K will make an excellent showing at the encampment.
