New Method of Reducing Fat
 A news item from Paris informs us that the American method of producing a slim, trim figure, is meeting with astonishing success. This system, which has made such a wonderful impression over there, must be the Marmola Prescription Tablet method of reducing fat. It is safe to say that we have nothing better for this purpose in this country. Anything that will reduce the excess flesh a pound a day without injury to the stomach, the causing of wrinkles, the help of exercising or dieting, or interference with one's meals is a mighty important and useful addition to civilization's necessities. Just such a catalogue of good results, however, follow the use of these pleasant, harmless and economical little fat reducers. We say economical, because Marmola Prescription Tablets (made in accordance with the famous prescription) can be obtained of any druggist or the makers, the Marmola Co., Detroit, Mich., for seventy-five cents the large case, which is a decidedly economical price considering the number of tablets each case contains.

TOO LATE FOR HERPICIDE

A PUBLIC TOOTH BRUSH

A noted dermatologist says, "The time is coming when an unsterilized public hair brush will be as rare as a public tooth brush." The reason is that dirty hair brushes spread dandruff, and true dandruff is now known to be a

contagious disease that will, sooner or later, cause baldness. A writer in Medical Review of Reviews says, "School children should know that it is dirty to use another's hair brush." When dandruff appears, get Newbro's Herpicide. Its intelligent use never fails to produce results. It is also a delightful hair dressing.

Send 10 cents in stamps to The HERPICIDE COMPANY, Dept. 12, Detroit, Mich. for sample and booklet. Two sizes: 50 cents and \$1.00. At Drug Stores.

When you call for Herpicide, do not accept a substitute. Applications at Prominent Barber Shops.
