

NEW EQUIPMENT FOR NASHWAUK DEPARTMENT

(Hange Bureau of the News Tribune.)

NASHWAUK, Nov. 12.—Nashwauk will be summoned to fires with a new fire whistle in the near future, the council having recently authorized the purchase. In addition to this the volunteer fire department will purchase 15 heavy water-proof coats for the members. A committee of firemen composed of H. Haugen, John H. Carlson and A. Jaffe has been appointed by Chief Vogan to take an inventory of all apparatus at hand and learn just what is most needed, and other purchases are probable.
