

# WORKING FAST ON SYNAGOGUE

---

Chisholm Hebrews Expect to Worship in It by Next Month.

---

(Rance Bureau of the News Tribune.)

CHISHOLM, Oct. 25.—Operations toward the construction of the Jewish synagogue have begun. The foundation was finished some time ago and the carpenters have now begun the frame work. It is expected that the building can be finished sufficiently so that it can be used for services by the latter part of November.

The building when completed will have cost about \$6,000. It will enable the Jewish people to hold regular services and a rabbi will be engaged.
