Women's Smart Coats for Utility and Motoring

\$16.50 to \$30.00

NEVER before was there such an opportunity for being well-dressed and suitably dressed. Time was when "useful" was another word for ugly in the matter of top coats.

NO longer so with the wonderful choice of smartly cut, expertly Worth-Tailored all enveloping coats in the Quality Store.

A REALLY handsome model is this "T & A" coat of brown duffle coating; the round collar and square revers may be buttoned close up to the chin; the cuffs are adjustable against wind; a semi-belted effect and Godet plait finish the back of the coat, which carries distinction in every line, and will be as effective for shopping and general wear as in the motor car. Also in grey, tan, navy and mode. **\$22.50**

A NOTHER utility coat above the commonplace in style is developed in an exclusive plaid lines men's wear overcoating; the colors are tan, brown, blue and grey. The welt pockets suggest a man's ulster; the large revers and round collar take away from the severe mannish effect, and when the coat is buttoned to the neck, only one revers is seen in combination with a smart rolling scarf-like collar. **\$25.00**

A T MORE moderate prices, too, are great, snug ulsters of soft motor mixtures in brown, olive, bronze blue, cadet grey and oxford. Wide round collar, buttoning snugly to the throat; large pockets, half belt with the new Godet plait in the back. **\$16.50**
