

# GRADE SCHOOLS TO GRADUATE SIX HUNDRE GRADUATES

Commencement Exercises at Most of Buildings Marks Graduation of Largest Number of Grammar School Children in Du-luth's History—Programs Attractive and Well Rendered.

Six hundred pupils were graduated from the eighth grade yesterday afternoon at various school buildings, and an unusually large proportion of them took part in the commencement exercises.

The typical graduation program of recitations and songs was varied at many of the schools with dialogues, while at the Lester Park school, Bernet school (which, however, holds its exercises this afternoon) and others, short plays featured the program. The tendency toward class day exercises, the class history, prologue, the will, and sometimes the class poem, was illustrated at the Lincoln school, the Nettleton and others, while the Satter school went even further and had a short commencement address, given by C. S. Mitchell.

Mothers and fathers almost in the hundreds attended the exercises at each school, and there was a general glow of satisfaction at the success of the programs which were brief and more interesting than those of other years.

The graduation roll is larger this year than ever before, a fact which made it necessary to hold the exercises at the different schools instead of at the high school assembly room as has been done before.
