LAND!

Attention, Working Men

Opportunity is now knocking at your door to show you the way to opulence and independence.

You are offered a chance to perfect title at a low price and upon easy terms to a piece of land and make for yourself a home in the heart of what in a few years will be the center of Minnesota's agricultural empire.

It is traversed by three railroads within easy reach of what are good markets now, and steadily growing better.

Agricultural experts pronounce it the best land proposition yet offered in Northern Minnesota. Climate is right, soil cannot well be excelled, and its location and environment exempt it from late spring and early fall frosts.

Land "Where smiling spring its earliest visit paid" "And parting summer's lingering blooms delayed."

Soil rich and productive, adapted for the raising in abundance of every conceivable product known to the northern farmer. Unapproachable in excellence for truck farming and garden products, including celery. Ideal for poultry raising.

Occupants of any of the tracts can support themselves on the land the first year, and in the fall have money to show for their labors, as well as a home they can call their own.

This is a rare opportunity and of a class that is fast becoming numbered in Minnesota with the opportunities that were.

For full particulars and terms apply to

L. B. ARNOLD
