

## Butte Mine Suit at an End

President Freimuth Says Case  
Was Compromised by  
Litigant.

Duluth, Minn., Dec. 2.—Official announcement of a settlement in the Butte and Ballaklava and Anaconda suit was made yesterday in a telegram from Butte to the effect that the case before the court had been closed.

I. Freimuth, president of the Butte-Ballaklava Mining company said that the settlement of the suit was satisfactory to his company. He said:

"It was a compromise and like all compromises, was a case of give and take. The Butte-Ballaklava company gave certain concessions to the west of the vein and received equal concessions to the east of it. We retain practically as much as we had before the suit started."
