AT THE LYRIC

"Hello Bill" in three acts is the play selected by the Harry St. Clair Stock company for tonight and the balance of the week. A rattling farce comedy, with a laugh from the rise of the first curtain until the fall of the last and an entirely new vein of comedy, differing from any farce yet presented at the Lyric...

Mr. Campbell is employed by the D. W. & P. railroad and is well and favorably known to a large number of Virginia people.

WHY NEWSPAPERS SELL GOODS Most newspaper circulations are built by public confidence. People believe in the newspapers they read. They personally know most of the local advertisers. When a national product is advertised in the newspapers it enters good society. It has the stamp of familiarity. It carries confidence with it. It reaches people when they are in the mood to buy and tells of goods readily obtainable. Ask the grocer for "German Rye," that good old fashioned bread made by the Star Bakery.

RAIN MAY STOP FIRST GAME IN WORLD'S SERIES

(BY ASSOCIATED PRESS.) PHILADELPHIA, Oct. 8.—Weather predictions for the world's baseball series, booked to open tomorrow in this city between the Philadelphia team of the American league and the Boston team of the National league indicate rain for both Friday and Saturday. There is no hope for clear weather and the best that can be expected is a light rain.

Virginia baseball fans, who have been anxiously awaiting the staging of the opening game in this series were greatly saddened by the report. Plenty of local coin has been wagered on the series and particularly on the first game. The betting in most of the downtown business houses now favors Philadelphia by odds of 100 to 80. Boston has many friends among the Virginia fans but they are loathe to loosen their purse strings to any great extent.

GRIGGS TO TALK ON EARLY FIRES

Fire Prevention day, which has become a fixture in the observances of dates in Virginia and which had its inception here years ago after the city had twice been destroyed by flames, will be observed here tomorrow. The celebration will be confined to a program which will be held in the assembly room at the Technical high school.

The principal feature of the day will be an address which will be delivered by O. H. Griggs, graduate of the local schools, pioneer resident of this city and who was here during both of the big early-day conflagrations. His personal observation of the two fires places Mr. Griggs in the best position possible to tell students of just what happened during these trying hours of the city's infancy.

BUILDING BOOM IS ON AT COOK

E. F. Luthey of Cook, was a Virginia visitor last night on business and reports that Cook is enjoying a genuine boom. Many new buildings are in course of construction, the farmers have had an excellent crop and Mr. Luthey says Cook will hold its own with any town on the range at present.

Roy Knudson has just completed a new house at Cook, which he will occupy with his family in the near future.

James I. Carpenter is building a new residence which will be occupied when completed by Ed Casey of the Range Lumber company.

C. H. Alcock of the Cook State bank occupied a new home which has just been completed for him last Saturday.

Frank Carr has started work on a new building adjoining the M. B. A. hall, which will be used as a pool room, restaurant and confectionery store.

Help Us Celebrate the 50th Birthday of Jewel Stoves

You are invited to visit a most interesting exhibit of Jewel stoves and ranges now being held at our store—Everybody welcome, visitors as well as buyers—We want you to see the splendid new models produced in honor of the golden anniversary year. You have longed for a Jewel for years—Now is your chance—Special values too good to miss.

Jewel Base Burner

Here's the kind of a stove to have in your house—the kind around whose ruddy glow the family and friends will be glad to gather when the storm rages without. There never was made another such big nickle-plated beauty that threw out such a strong, steady, pleasant heat, that warmed the floors and the far corners of the room, and did it all on such an astonishingly small amount of coal. Many models, all at special Birthday prices.

Base Burners \$40 to \$75 Oak Heaters \$10 and Up

Jewel Range

There are two classes of house-keepers—those who are fortunate enough to own a Jewel range, either cast or steel—and those who have long wanted one. If you haven't a Jewel here is your opportunity. Think of the big, brown, delicious loaves of bread, and the exquisite pies and cakes with which you will delight your husband and friends. The Jewel is scientifically made to bake and to cook, to save trouble, worry and coal.

Ranges \$30 to \$60

Free Kitchen Utensils During Sale Week

With every Range sold during this Birthday sale, we will give away free of charge a guaranteed 6 piece set of Aluminum Kitchen Utensils.

We Also Give Away a Jewel Range

To every person who visits our store during this week we will allow a free guess on the number of pieces used in the Jewel Range. The nearest guess will receive the Range Free of charge.

WE GIVE AND REDEEM SECURITY VOUCHERS ON CASH PURCHASES. ALWAYS ASK FOR THEM. VIRGINIA MINN. ALA & ANDERSON The Home of the Jewel

FRENCH TROOPS LEARN WAY TO COMBAT BIG SIEGE GUNS

LONDON, Oct. 8.—A wounded artillery officer who has returned from the front, says Reuter's Paris correspondent, gives details of the working and the effects of the fire of the German 17-inch howitzers. "If well served and employed under proper conditions," the officer said, "these guns are very effective, but their handling and transport is so difficult that this is rarely the case. Even 40 horses harnessed to the guns are unable to drag these gigantic pieces over the French roads soaked by the autumn rains. "The mechanism of the guns is so delicate and complicated that it is extremely difficult to replace immediately lost parts. "Again, while effective at distances, the big howitzers are comparatively harmless at close range and the gunners are at the mercy of bayonet charges. Moreover, the shells burst nearly all too soon, too late or not at all. "The troops quickly grasped the best method for dealing with these monsters. Once having passed the zone commanded by their fire the French, being handy with the 76-millimeter guns, sweep away the German artillerymen and then charge. Already a fair number of the guns have been captured in this way. "The officer said the big howitzers are really useful only if their position is guaranteed by efficient support from light artillery and infantry.

JAPANESE GOING WEST IS REPORT

ABERDEEN, S. D. Oct. 8.—A letter from a Russian correspondent of the Dakota Freie Presse, a German paper published here, from the Volga district in Russia, states that thousands of Japanese troops are passing through that region on the Siberian railroad, bound for the European war theatre. The troops, the correspondent claims, come in detachments of about 500 each and at intervals of a day or two. Their exact destination was unknown. The letter was dated Aug. 19.

SAYS STORY OF STORK SHOULD BE BANISHED

SIoux CITY, Iowa Oct. 8.—The old myth of the stork, popularly depicted as standing on one leg with the bundle of a newborn babe in his beak, was denounced yesterday by Miss Charlotte E. White of the Child Conservation League of America, addressing a woman's meeting. Miss White said the stork story was misleading and gave the child its first intimation of a mother's deceit.

TOWNS AND VILLAGES BORROW FROM STATE

ST. PAUL, Oct. 8.—The feeling of prosperity that pervades the Northwest was reflected yesterday by the approval of \$207,950 in loans by the State Board of Investment. That village and town authorities of Minnesota have not been influenced by talk of impending bad times is shown by the fact that they are willing to borrow from the state in this large amount. The requests for loans came from every part of the state. The money will be used to erect schoolhouses, build ditches and complete village and town projects.

"SKY PILOT" IN HOSPITAL

ROCHESTER, Minn., Oct. 8.—Rev. Frank E. Higgins, the lumberjack sky pilot, is in St. Mary's hospital here, recovering from operation for sarcoma of the right clavicle. This was the second operation of the same character since April.

FARMER IN INSANE RAGE KILLS THREE

ST. CLOUD, Minn., Oct. 8.—In a fit of insane rage, John Zoerb, aged 50, a farmer, of Silver Creek, a flag station on the Great Northern road, in Wright county, shot and killed his wife, a stepdaughter, aged 18, and his own daughter, aged 13, yesterday. The triple murder was not known here until today. Zoerb, his murderous rage exhausted, fled from his house and later gave himself up at St. Bonifacius, in Hennepin county, and is now in custody at Buffalo, county seat of Wright county.

A quarrel with his wife led to the slaughter of the three persons. She ran from him into the house and he fled with a shotgun through a door, killing her almost instantly. Then he entered the house and shot the stepdaughter and his own child. A third girl, his second daughter, aged 7, hid in an upstairs room and pleaded for her life when he also threatened to kill her. Then he decided to spare her and took to flight, only to give himself up later.
