

# WE TRIED IT!

Bought COFFEE cans back to use again, but they were thrown away as we would not dare use a can a second time.

First—If it were possible to clean them thoroughly it would make them cost as much as a new can—too expensive.

Second—Our new all-fiber, parchment-lined cans are absolutely sanitary and they effect a saving of 5 cents a pound. We made it possible for you to save this amount as we reduced the price to that extent and you are further assured of a clean can.

ARCO is one of the finest blends it is possible to gather together from all the coffee-growing countries of the world.

If your grocer will not supply you we will send it to you on receipt of the retail price.

## CONSIDER THE SAVING

Give this new, wonderful, winning product a place on your table. Use it for cooking and cake-making and without sacrificing anything to taste or satisfaction you are at the same time practicing real economy and doing a patriotic duty by saving on fats, so badly needed at this time.

# HOLIDAY NUTMARGARINE

—is a perfect vegetable product—an absolutely pure nut butter—coconut oil, peanut oil, milk and salt. It costs fully a third less than the best butter—is delicious in taste and just as good. It looks just as good, too. A capsule of vegetable coloring is furnished free with each carton, and the coloring process is an easy matter.

We are compelled by an old law to label this new product Olegomargarine because there exists no law that distinguishes between Olegomargarine made of animal fats and Nutmargarine, made of vegetable oils.
