**To Keep Skin Healthy,
Youthful, Wrinkleless**

Now that the social season is here, be especially careful to keep your skin in fine condition. You know how conspicuous complexion defects appear under the bright light of the drawing or hall room. Also how very evident are some makeups when similarly illuminated. You can discard cosmetics entirely, using a process which leaves no trace on the skin. At night smear on a thin coat of ordinary mercerized wax, washing it off next morning. This gradually absorbs the dermalized particles of surface skin; just as gradually the more youthful skin beneath comes forth, providing a complexion as clear, smooth and delicately tinted as a young girl's. Get an ounce of mercerized wax at your druggist's and try this remarkable treatment.

Remember, too, that wrinkles, even the finer lines, are not easily concealed in a brilliantly lighted room. You can quickly obliterate these hateful marks by bathing your face in a solution of powdered sorolite, once, twice, dissolved in witch hazel, one-half pint. And your face won't look sticky, as after using pastes.
