"I served with Senator George H. Lommen in our Senate and know him well. Senator Lommen is a young man of great abilities, a good speaker, a ready debater and a great student of public questions. He is a champion for justice to the common man, a valuable man in the Senate and a young man who ought to return him to the Senate. He always opposed bills which would confer special privileges on a few at the expense of the many and thereby incurred the enmity of some large interests."

"In my opinion there are three qualities that combine to make the ideal legislator, viz., honesty, courage and ability. and in my opinion there was not a man in the last session of the legislature who possessed those qualities so abundantly as Senator Lommen. Senator Lommen's fight against the per capita tax bill exhibited moral courage and statesmanship and legal ability of the highest type. The common people of the whole state need such a man as Senator Lommen in the State Senate and your district is to be congratulated on having a man of his quality."

"Do what you can towards electing Senator Lommen to succeed himself in the Minnesota Senate. If it was not for such men with ability and nerve we would have, very few in our legislature fighting for the people and against the trusts. Look up his record in the last session waged against the steel trust. Get out and vote and vote for him. Try and search his record and you will find that he always stood for you and your interests."
